GAC 國際大學預科中心

Did you think you might continue your study path at different overseas universities, even if you got poor result of HKCEE at lowest zero score?

Our organization is one of marketing affiliates to promote the Global Assessment Certificate Universities' Preparation Course in Hong Kong. This course is a study tour at the campus of Zhejiang University City College in China. (Duration: 1 - 1.5 year; Total fee: HK\$55,000 including students' accommodations)

The Global Assessment Certificate provides the only pathway where students are guaranteed that a large number of different English language universities will provide a place for them based on their results. The focus of the program's curriculum is on university admission into undergraduate programs including courses in such fields as information technology, business and commerce, economics, journalism and media, applied sciences and technologies, humanities and social sciences.

GAC graduates possess:

- Highly developed research and independent learning skills
- Proficiency in all English language skills
- Advanced information technology skills
- A practical understanding of enquiry based learning

The program is designed for global delivery, facilitated through a centralised administrative centre in Melbourne, Australia. The GAC standards are maintained through a strict quality assurance procedure overseen by the Global Governance Board. The Global Assessment Certificate is widely recognised as an entrance standard by internationally recognised universities in the major English speaking countries - the USA, United Kingdom, Australia, Canada and New Zealand. The GAC Academic Transcript identifies your successful completion of the program undertaken in English and issues a Grade Point Average (GPA) that is recognised by these universities. This information allows a Pathway University to quickly respond to your application for enrolment.

Each university has different entry criteria for GAC graduates. **This ranges from:**

>Advanced standing (up to 15% of an undergraduate degree) >Automatic entry >Entry conditional on achieving a specified GPA

There are also opportunities for GAC graduates to receive university scholarships.

Admission requirements: Obtained E grade or above in subjects of English (Syllabus B) and Maths in HKCEE. If applicants do not meet this requirements, they need to pass a English Entrance Test conducted by GAC.
